PROFESSIONAL SUMMARY

Nuke compositor with 5+ years delivering advertising and television/feature VFX for major studios, including The Mill and Ingenuity Studios. Specializes in CG integration, beauty retouching, and greenscreen compositing for global brand campaigns and streaming series, turning raw plates into polished, finished shots.

WORK EXPERIENCE

Ingenuity Studios | *Compositor* | New York, NY

Feb 2024 – Aug 2025

- Performed complex compositing and clean-up using Nuke for high-profile series and features on Netflix and Apple TV+, including Weapon and Emily in Paris.
- Refined visual defects in live-action sources through greenscreen keying and removal of distracting elements from plates.
- Standardized tone and manner across sequences through precise asset integration and color/lighting matching to ensure shot-to-shot consistency.
- Integrated 3D assets into live-action plates by adjusting individual passes to achieve a seamless, photorealistic final image.

The Mill | *Compositor* | New York, NY

Nov 2020 – Sep 2023

- Contributed to core compositing for global brand campaigns including Google, Starbucks, and annual Super Bowl commercials.
- Reconstructed complex environments using 3D projection and composited assets in alignment with brand visual direction, maximizing aesthetics through high-end beauty retouching for talent and products.
- Handled compositing between live-action sources and CGI assets, maintaining an efficient workflow to deliver optimized results within production deadlines.

The Mill | *Compositing Intern (2D)* | New York, NY

Jun 2019 – Dec 2019

- Supported lead artists on high-profile commercials for Mucinex and Lincoln, assisting with CG integration, beauty retouching, and color correction.
- Performed initial color correction and technical plate preparation to support the 2D team's production pipeline and final quality standards.
